1. Purpose and Scope

This guide explains how to use ExpenseTrack Pro with the help of WalkMe, the in-application guidance tool built into the portal. It covers the WalkMe elements available to end users, and walks through the most common task in the system: submitting an expense report.

This guide is a portfolio writing sample. ExpenseTrack Pro and the screens shown throughout are fictional and were created to demonstrate a WalkMe-enabled end-user manual in a Fortune 500-style documentation format.

1.1 Audience

This guide is written for employees who submit expense reports in ExpenseTrack Pro, including new hires completing onboarding and existing employees who want a refresher on available self-service tools.

1.2 Related Documents

- ExpenseTrack Pro Administrator Guide (WalkMe segment configuration)
- Corporate Travel and Expense Policy

2. What Is WalkMe?

WalkMe is a digital adoption platform layered on top of ExpenseTrack Pro. It does not change how the underlying application works; instead, it adds guided overlays, tooltips, and a self-service help panel directly on the screen so employees can complete tasks correctly the first time, without leaving the page to search for instructions.

Throughout this guide, WalkMe overlay elements are shown in orange to distinguish them from the ExpenseTrack Pro application underneath.

2.1 WalkMe Element Glossary

Element	Description
Launcher	The orange “?” icon docked in the corner of the screen. Opens the WalkMe menu of available guidance on the current page.
Smart Walk-Thru	A guided, step-by-step overlay that walks a user through a task in the live application, one field or click at a time.
ShoutOut	A banner or pop-up announcement used to communicate time-sensitive information, such as a policy change, directly inside the application.
Smart Tip	A single-step tooltip that highlights one field or button, typically used for a short reminder rather than a multi-step process.
Resource Center	A side panel that gives users self-service access to all available guides, FAQs, and support contacts for the current page.
Survey	A short, targeted question WalkMe displays in-app to collect user feedback (not covered in this guide).

3. Getting Started

WalkMe loads automatically when you sign in to ExpenseTrack Pro. No separate login or installation is required.

3.1 Locating the WalkMe Launcher

The Launcher is the orange “?” icon docked in the lower-right corner of every main screen. Selecting it opens a menu of guidance available for the page you are currently viewing, including Smart Walk-Thrus, FAQs, and support contacts.

Figure 1. The Dashboard, with the WalkMe Launcher docked in the lower-right corner.

NOTE
If the Launcher is not visible, confirm you are on a supported page. It is always available from the Dashboard.

4. Submitting Your First Expense Report

This section walks through submitting an expense report using the ExpenseTrack Pro Smart Walk-Thru. The Walk-Thru highlights one field at a time and advances automatically as you complete each step.

4.1 Step-by-Step Procedure

1. From the Dashboard, select the WalkMe Launcher and choose “Walk-Thru: First Expense Report,” or select New Expense Report directly to begin.

Figure 2. Smart Walk-Thru, Step 1 of 5 — starting a new report.

2. Complete the Report Title and Business Purpose fields as prompted.
3. When you reach the Cost Center field, WalkMe highlights it and displays guidance for selecting the correct value.

The screenshot shows a web browser window with the URL `https://app.expensetrackpro.com/expenses/new`. The page has a dark blue header with the 'ExpenseTrack Pro' logo and navigation links for 'Dashboard', 'Expenses' (which is underlined), 'Approvals', and 'Reports'. A user profile icon labeled 'MG' is in the top right. The main content area is titled 'New Expense Report' and contains four input fields: 'Report Title', 'Business Purpose', 'Cost Center', and 'Expense Date'. The 'Cost Center' field is highlighted with an orange border. A WalkMe overlay box is positioned to the right of this field. The overlay has a 'WalkMe' logo, the title 'Select Your Cost Center', and the text: 'Choose the cost center that funded this expense. Contact your manager if you are unsure which one applies.' At the bottom of the overlay, it says 'Step 2 of 5' and has a 'Next >' button.

Figure 3. Smart Walk-Thru, Step 2 of 5 — selecting a Cost Center.

CAUTION

Selecting the wrong Cost Center can delay approval. If you are unsure which one applies, contact your manager before submitting.

4. Continue through the remaining Walk-Thru steps to enter the expense date and attach a receipt.
5. Select Submit. A confirmation screen appears, along with a Smart Tip on how to track approval status.

Figure 4. Confirmation screen with a Smart Tip on tracking approval status.

TIP

Most reports are reviewed within two business days. You can check status anytime from the Approvals tab.

5. Using the Resource Center

The Resource Center is a self-service panel that gives you on-demand access to guides, FAQs, and support contacts without needing to restart a Walk-Thru from the beginning.

5.1 Opening the Resource Center

1. Select the WalkMe Launcher from any page.
2. Choose Resource Center from the menu.
3. Select any item — such as an FAQ or the Expense Policy Summary — to open it in place.

Figure 5. Resource Center panel, showing available self-service guidance.

6. Understanding ShoutOuts

ShoutOuts are banner announcements WalkMe displays when there is a time-sensitive update, such as a policy change. They appear automatically when you load an affected page and can be dismissed by selecting the close icon.

Figure 6. A ShoutOut announcing a policy update on the Dashboard.

NOTE

Dismissing a ShoutOut does not permanently hide it for other users — it will still appear for colleagues who have not yet seen it.

7. Troubleshooting and FAQ

If WalkMe guidance does not behave as expected, review the items below before contacting support.

Question	Answer
The Smart Walk-Thru didn't start when I clicked Launch.	Refresh the page and confirm pop-up blockers are disabled for app.expensetrackpro.com, then relaunch from the Launcher menu.
I don't see the Launcher icon anywhere.	The Launcher is hidden on some restricted pages. Return to the Dashboard, where it is always visible in the lower-right corner.
Can I skip a Walk-Thru step and come back later?	Yes. Select the "X" to exit at any time. Your in-progress expense report is auto-saved as a draft, and you can relaunch the Walk-Thru from the Resource Center.
Who do I contact if WalkMe guidance seems out of date?	Use "Contact Finance Support" in the Resource Center, or email the Learning & Digital Adoption Team listed on the cover page.

Appendix A: New Hire Onboarding Checklist

Use this checklist during onboarding to confirm a new employee is comfortable with WalkMe-enabled guidance in ExpenseTrack Pro.

	New Hire WalkMe Onboarding Checklist
☐	Locate the WalkMe Launcher on the Dashboard
☐	Complete the “Submitting Your First Expense Report” Smart Walk-Thru
☐	Open the Resource Center and review the Expense Policy Summary
☐	Confirm you can view report status under the Approvals tab
☐	Bookmark the Finance Support contact from the Resource Center
